Stockbrokers Watch Rise and Fall as Mariner Watches His Glass.

EASIER TERMS ARE PREDICTED

Yesterday's Loans Are Renewed at From 6 to 8 Per Cent-Market for Foreign Exchange Reacts Slightly and Then Hardens.

York, October 5.—The rate for call is Wall Street's barometer, and no r at sea ever watched his glass more than the stockbrokers' money rates Saturday's bank statement showed clearly the extent of the Eastern movement of funds. Easter movement of funds. Easter rates are confidently predicted by bank officers in the near future. Today's rates' were not affected, and loans were renewed at from 6 to 8 per cent. The shipment of wheat last week, amounting to 3,490,000 bushels, accounted for \$10,000,000 of the exports.

By a ruling of the committee of seven, brokers are permitted to solicit bids and offers from the various houses, and only have to submit a trade to the committee before it is completed, without disclosing the names of the principals. This will further facilitate dealings.

Another step forward was made by a ruling by the committee of five of the Stock Exchange that stocks borrowed and loaned must be marked down by the amount of dividend deduction allowed in the clearing-house. As the short interest for foreign account in Union Pacific, Southern Pacific and Steel amounts to probably more than 150,000,000 shares, the New York representatives of the London houses will be reimbursed a round amount by the quarterly dividend on these shares.

New York, October 5.—Operations by the \$100,000,000 gold pool to-day exercised considerable influence on the foreign exchange market. Cables opened as low as \$4.95%, with demand bills a cent under that quotation, but the unusually large inquiry soon caused a fractional advance. a fractional advance.
Further subscriptions to the fund from interfor banks were reported, and it is believed the pool soon will have in hund not less than 25 per cent of the entire amount piedced. A large part of the exchange sold was for cotton bills, recent heavy shipments of that staple being reflected in these documents. The several committees supervising private sales of securities were more active as a result of a broader demand for high-class bonds and stocks. Individual investors as a result of a broader demand for high-class bonds and stocks. Individual investors supplied the bulk of the business, but in-terior corporations also were in the market, Except for renewals, the money market was flat. At best quotations for time loans were only nominal, at 748 per cent.

New York, October 5.-Mercantile paper, Sterling exchange, easier: for cables, \$4.96; for demand, \$1.95. Exchanges, \$294,829,584; balances, \$11,357,488. Bar silver, 52%.

COTTON MARKETS.

New York, October 5.—Little or no change was reported in the cotton situation here to-day. There were rains in the eastern belt, threatening to damage the grade of open cotton and to delay picking, but crop news attracted very little attention, and local spot dealers said their offers from the South were about the same as at the end of last week.

Receipts are increasing somewhat, but are still far below the normal, and nearly all reports indicate that farmers are holding the bulk of their crops. A report is expected from the committee on rules and by-laws here within the next day or two, and other committees are said to be working hard ver measures necessary to a resumption of business, but no official announcements were made during the day.

Total for week-Net receipts, 57,526 bales; exports, 15,809 bales.
Total for season-Net receipts, 506,301 bales; exports, 155,432 bales.

New Orleans, October 5.—Spot cotton lost 15 of a cent a pound in the local market — Mr. Brown was fifty three years old. He had been ill for some time, but d January contracts were traded in at 7.70 nts. This was a fail of about thirty points on the high levels reached by January st week. feature of the day was general discusof the proposition to reopen the future ring at an early date.

The export movement caused builtsh comment. Foreign clearances from all ports for the day amounted to 14,575 bates. Sales on the spot, 250 baies; to arrive, 300 bales.

Damages are asked in the sum of \$10,000 for the death of the little boy, who was instantly killed when run down on March 26 by an eastbound Riverview car while he was crossing the street, not far from his home.

According to eyewitnesses, the accident was unavoidable. They told the police that the child, who had been playing with several companions, run directly in the path of the trolley, which was proceeding at a good rate of speed. The motorman, H. H. Stilson, was arrested, but was dismissed by Justice Crutchfield.

Coroner Taylor held an inquest the day after the accident, but failed to fix the blame. The child's death was instantaneous, the body having been dragged several yards beneath the wheels of the car.

Charged With Stealing Brass.
Leslie Maitland, twenty-three years old, was arrested yesterday by Detective-Sergeant Wiltshire and Policemen Westcott and Tinsley on the charge of stealing a quantity of brass from the Southern Railway. The stolen goods were recovered at Bishop's junk yards, and are being held as evidence. Maitland was locked up in the Third Police Station.

Again Continue Cohen Case.

On account of the absence from the city of Cora L. Padgett, the principal witness, Justice Maurice again continued the case of Mrs. Clarke Cohen yesterday morning in Police Court, Part II., until October 15. Mrs. Cohen renewed her bail bond in the sum of \$1,000. Cora Padgett, who was badly hurt in an attempt to kill herself last August, is said to have returned to her home in Basic City.
